All-in-One GSM SIM Card & Reader

Features

✓ Integrates 6 GSM SIM Cards onto 1 SIM
✓ Switch phone numbers/SIM via user menu
✓ Integrates all your phonebooks onto 1 SIM
✓ Supports all GSM COMP128-1 SIM Cards

Benefits

✓ No need to travel carrying multiple GSM SIM Cards
✓ No more fiddling and swapping SIM Cards on the go – just select from the menu
✓ No need to power off your phone to switch between GSM SIM Cards
✓ Keep multiple GSM Network SIM Cards on one phone
  ✓ minimise cross-network charges by calling on the appropriate network
  ✓ keep and maintain only one SIM phonebook for all networks
  ✓ one phone for separate business and personal use

Requirements

✓ Pentium PC with serial Port
✓ GSM COMP 128-1 SIM Cards (as used by over 80% of networks)
✓ GSM Handset with SIM Toolkit Support (most modern handsets)
✓ Takes only 4 - 10 hours to transfer each SIM Card onto the All-in-One SIM Card
  ✓ Just leave your GSM SIM Card in the Reader & PC overnight
